As we witness the rebirth of the Divine Feminine, then we will see balance restored to our world.

This Essence is a classic Key of Transformation, and it encompasses three distinct aspects. Each one of them quite magnificent and totally unique.

1) The Mary Line essence begins a birthing process

The Mary Line begins the birthing process, where the Divine SHE is born into your heart. This state of divinity is a Light that stands opposite the masculine Christ Light, which is also in the core of the heart of each person.

1

Whereas, we know the source of the masculine light within us, this new feminine light is not of just one person, but is of every aspect of the Divine Feminine. She is the partner to the masculine. She completes the story in your heart, which at present only holds the one Light. From the moment you take this essence, the second Light will begin to burn brightly within you.

This new child is the birth of this new age. She is the missing aspect of the age we are just leaving. She offers you a state of growing through balance and into completion within your heart.

2) This essence carries within its remit, a story

It is the history of the world. It is the history of everything that has gone before. It is a library as great as the Akashic Records. Yes, and it is all in this tiny bottle. Let us say that the essence is a key to this great library and as you take the essence, it turns the key in the lock of the library door, and as you come to the end of this essence, that door will be fully open.

What is within the library? The library holds for you the truth of all humanity. It holds the truth of everything that has ever been and everything that can ever be. On each page of the book, there are two stories: One is a story of destruction and devastation and the other is a story of creation and expansion. One is filled with Anger, Despair, Fear, Hate and Sorrow and

the other is filled with Courage, Happiness, Hope, Joy and Love. Upon each page you are given a choice. You choose which of the opposites you create. You are given the power of God to decide. You make the choice of life, or not life – the choice of creation or not creation.

This is a big picture, isn't it? Dare you open the door to that library? Well, sooner or later, you will have no choice, for at some point on your evolutionary path, you will have to open that door and see the truth of who you really are, as it is recorded and reflected in the pages of the book. I have seen those pages where my own life is concerned, and it is quite some journey to navigate them, but here we are offered an opportunity to walk a different path, based on this great gift that is being offered right now in The Mary Line essence.

We are being offered a choice of being able to allow the growth of this new child of feminine love and nurturance to grow in our hearts, so that we become softer and more caring in our world.

3) The Earth Current and the Line of Mary

There is yet another aspect to this Key of Transformation, The Mary Line essence. The Mary Line brings us all the divinity of the Earth Mother Consciousness, as if flows through the Mary Line Earth Current. You can stand in the place it was created, by the alter in the Mary Chapel in Glastonbury Abbey, on the site of the old church built by Joseph of Arimathea in the name of his nephew Yeshua ben Joseph, otherwise known as Jesus. It takes you to the birth of this great cycle of time.

The essence brings forth the line of Mary, mother of the boy Jesus, born of the line of David, bringer of light and truth. It is the virgin vibration, that was visited by the Angel Gabriel and the Seed of Light planted in the womb of Mary, that would produce the man who would offer you salvation, through his teachings. This essence carries all these qualities. It is a superlative, it opens its doors for you to step through into the Line of Mary and opens the Line of Mary into your heart.

Well, it might all sound a bit religious, but it isn't. It is just the truth of the most divine of all the divine feminine energies that have ever walked this world. It is given to us now, and it is offered to you as a key to the rebirth of the divine feminine within you, and as a key to connect you with the divine feminine of our Earth Mother, too.

Summary

The message is simply that The Mary Line essence will bring you, both men and women, to a place of completion within. It will give birth to the Light of the Feminine aspect within your heart. It offers to complete a missing part of you. It opens the love of woman into your heart.

♥ For women

Specifically, if you are woman, then it opens you to your deeper self, the part that has been extinguished or hidden for centuries. It allows you to begin to experience the Goddess at the core of your being. The deep identity of woman has been hidden for too long. I am certain that many women wonder who they are and why they are here, at

times, because this deep light has been so dimmed at their core. Now is the age of its awakening and in this essence is a key to help bring this birthing process to completion. This will help women to find their identity by birthing this Light within them.

♥ For men

If you are man, then it opens your eyes to be able to feel the heart of woman. You know that saying, 'my wife doesn't understand me,' well, it is not that women don't understand men, but that men were unable to understand women because of the differences of focus within the heart. In this new age, men's hearts will develop so that they understand women more, and in that lies a much greater opportunity for harmony and cooperation.

Most importantly, this essence opens male and female hearts to the whole line and history of the feminine and allows you to feel what you have been missing these past thousands of years. It is impossible to know what you have missed, if you have never tasted it, but once you taste something for the first time and it is wonderful, well, don't you always want a bit more? Well, that is what the Divine Feminine energies are like. Once you begin to taste them, then you will want to allow them into your life, and the truth is that you are only half a person without them.

You can't know what you are missing until you have the courage to open yourself to receive it, and humankind has a lot of work to do, in order to receive and embrace the truth of the divine feminine. This essence is a starting point, its potential is massive! Will you allow it to birth within you? Do you have the courage?

Carrying the Light of Purity

This essence carries with it, such a depth of love, that you have never felt or witnessed before, but this is opening to us now, in the birth of a new age. Allow this essence to nurture you. Find the peace to step into a place where you can feel it love you, and remember that it could only be given, at one moment in time... When a woman with such inner purity, stood in the sacred Mary Chapel at Glastonbury Abbey and asked for an essence of the Mary Line. I am certain, she had no idea, what would be given through her heart for humanity.

Be careful what you ask for. 😊

With my deepest Love and Blessings,

David Ashworth
